

COVERED WALKWAYS

INVITING, PRACTICAL, DURABLE

Shade to Order has manufactured many covered walkway structures, including the Internationally Award Winning structure at Newcastle Airport which is over 250 metres long.

We are a one stop shop. From design and drawings to fabrication and installation, every process is in house and we have tried and proven methods that result in award winning structures all over the world.

Contact us today to discuss the use of a Shade to Order tension membrane structure for your covered walkway project.
