

Eaton Mall, Oakleigh VIC

UMBRELLA STRUCTURES

PERMANENT, ROBUST, DURABLE

Shade to Order manufactures conical umbrella structures that are incredibly heavy duty and permanent. Centre columns are typically 140mm-160mm dia.

Available in centre column, cantilevered, inverted, joined, and fixed edge varieties. Choose from a wide range of fabric and steel colours. Optional heaters and lights complete the package.

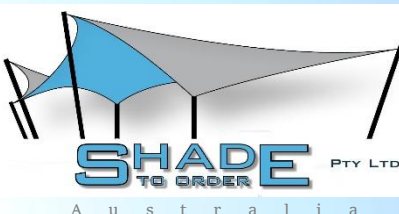

Unlike the more commonly seen flimsy, collapsible types, our structures stay up all year round and easily withstand severe weather conditions.

Shade to Order's structures are an investment that will repay the customer with years and years of trouble free service. Fully warranted for up to 20 years with an expected design life of over 25 years. Custom sizes and configurations are available on request.
